Sustainable Materials for a Responsible Future

In today's world, sustainability is not just a trend—it's a necessity. Our ESG-rated materials and components ensure that your business meets the highest environmental, social, and governance standards.

 **Eco-Friendly Choices** – From responsibly sourced **copper** and **aluminum** to durable **steel**, our materials minimize environmental impact while maximizing efficiency.

 **Social Responsibility** – We prioritize ethical sourcing, fair labor practices, and community impact, ensuring that every component contributes to a better world.

 **Transparent Governance** – Compliance, integrity, and accountability are at the core of our operations, giving you confidence in every purchase.

ESG Table for Materials and Components

Material/Component	Environmental (E) Weight	Social (S) Weight	Governance (G) Weight	Total ESG Score
Copper	50% (7/10)	30% (6/10)	20% (7/10)	6.8/10
Aluminum	40% (8/10)	30% (5/10)	30% (6/10)	6.7/10
Steel	45% (6/10)	35% (7/10)	20% (6/10)	6.4/10
Electronic Components	35% (5/10)	40% (4/10)	25% (5/10)	4.9/10

Product total weight in %

Electronics	15%
Copper	18%
Aluminium	56%
Steel	10%
EEE(Various types)	1%
